PlayTray

DK

Tillykke med jeres nye PlayTray.

Vi håber, at i bliver glade for bakken. Bemærk, at PlayTray kun kan monteres på en Stokke Tripp Trapp stol.

Den vedlagte strop kan monteres ved hjælp af metalbøjlen på undersiden af bakken og strop-hullet i Tripp Trapp stolen (figur 1). Det udgør således en sikkerhedsstrop, så barnet ikke kan glide ned under bakken. Når barnet bliver større, kan i fjerne stroppen og bruge PlayTray alene (figur 2).

PlayTray kan i nogle tilfælde også monteres på den originale Tripp Trapp bæjle. Bemærk dog, at der er stor forskel på bæjlerne, og derfor findes der bæjler, hvor bakken ikke kan komme ned over.

Umykid kan ikke gøres ansvarlig for skader og ridser på stolen samt skader sket under brugen af PlayTray.

PlayTray er dansk designet og produceret. Materiale: K-Resin (SBC), som er FDA godkendt.

God fornøjelse med PlayTray!

UK

Congratulations with your new PlayTray!

Please note that PlayTray only fits on an original Stokke Tripp Trapp high chair.

The enclosed strap can be mounted on the tray by use of the clamp under the tray and the strap hole in the chair seat (figure 1). The strap hereby secures that the child cannot slip under the tray. When the child grows older you can remove the strap and use the tray without strap (figure 2)

PlayTray can in some cases also be mounted on the original Tripp Trapp waist rail. Please note that there are large tolerances on the rail, and therefore PlayTray cannot fit on all versions of the waist rail.

PlayTray is designed and produced in Denmark. Material: K-Resin (SBC), which is FDA approved.

Umykid cannot be held responsible for damages and scratches on the chair or injuries occurring when using PlayTray.

Enjoy PlayTray!
