Me Time!**TM

Talking Alarm Clock & Nightlight

The Educational Bedside Clock That Grows with Your Child.

Teach Me Time! is an adorable, talking bedside alarm clock, time-teaching tool, and nightlight all in one.

Teach Me Time!'s body glows in two colors. A soft yellow glow provides comfort at bedtime and turns green in the morning when it's "OK to wake!"

School age kids learn to tell time on both analog and digital clocks using the interactive talking game.

What time is it?

Grow & Learn...

- **Ages 3-5:** Teach Me Time!'s color changing nightlight teaches kids to stay in bed until it's "OK to wake!"
- **Ages 5-7:** The Teach Me Time! interactive, talking game helps school age kids learn to tell time on both analog and digital clocks.
- **Ages 7+:** Teach Me Time! is a fully functional alarm clock with snooze feature - just like mom and dad's!

Dual-Color Nightlight with Timer

Teach Me Time! is also a programmable nightlight. Parents select the on, off and (optional) "OK to Wake!" time - the time at which the nightlight changes color from soft-glow yellow to "Green means GO!"

Talking Alarm Clock & Nightlight

Teach Me Time! Grows with Your Child

- **Kid Friendly Shape, Parent Friendly Design.** Kids love the shape! - "toe" buttons are fun to press and easy to use. Concealed parent control panel provides access to clock functions and instructions. Included, interchangeable LCD bezels (blue, pink & yellow) provide options for any room decor.
- **"OK to Wake!" Dual-Color Nightlight Timer.** The nightlight timer is easily programmed to turn on and off at any time of day. Parents can also customize an "OK to Wake!" time (when the glow color turns from yellow to green). "Green means GO!"

- **Teach Me Time! Talking, Interactive Game.** Teach Me Time!'s educational, talking game is designed to keep parents involved in the learning process and to encourage a dialog about time before bed. Teach Me Time! makes announcements in a clear, female speaking voice and has five staged learning levels.
- **"Grown-Up" Alarm Clock.** The built-in alarm clock features a fun ding-a-ling wake-up sound and 10-minute snooze function.

Specifications

- Display:** High-contrast, backlit LCD with analog and digital clock displays; adjustable dual-level backlight brightness control.
